

Details of Rigathi-Ruto Secret Deal

Coming up - Byelections in several constituencies & MCA seats.

Erastus Edung Etheke - IEBC chairperson nominee - is 1st cousin of Josphat Nanok, State House deputy chief of staff.

Ruto is in total control of IEBC.

Rigathi desperately wants to be 'King of Mt Kenya' - So he can be in a position to 'cut serious political deals'.

Ruto desperately wants to prove he is not as 'unpopular as portrayed in the media & social media'.

Ruto has accepted Mt Kenya is gone.

No problem – He has a plan to prove he is 'loved' in the rest of the country.

The Independent Electoral and Boundaries Commission (IEBC) will make sure Rigathi 'wins' all by-elections in the Mountain, via his new DCP party.

All.

That will 'confirm that IEBC must be fair', since Rigathi is 'Ruto's enemy'.

Ruto will 'win' most of the rest – even snatching some seats from his ODM ally.

In particular, ruling UDA party is determined to 'win' Kasipul seat (in Homa Bay county, Nyanza region), made vacant after assassination of ODM MP Charles Ong'ondo Were.

In fact, that is why MP Ong'ondo-Were had to die.

Unsurprisingly, several Homa Bay ODM politicians have suggested the government was behind the murder of the member of Parliament.

After coalition between UDA-KK & ODM late last year, Ruto became quite popular in Nyanza (because ODM leader Raila Odinga is Nyanza-born).

All Chiefs in Kenya report to Raymond Omollo, Principal Secretary, Internal Security & National Administration.

Omollo claims to have been born in Homa Bay county, Nyanza.

According to State House strategists, Kasipul ODM MP Were was the perfect politician to create political vacancy in Nyanza, that ruling party UDA could 'win' without raising any suspicion.

- He had a lot of enemies; so his murder could be pinned on them.

- Omollo would mobilise local Chiefs & their assistants to campaign for UDA candidate; then IEBC would do the rest.

Interestingly, for this plot by Rigathi Gachagua & William Ruto to succeed, they believe (or hope) that the politicians they are fooling (double-crossing), won't find out.

(a) Ruto: His mission will succeed, if Raila doesn't find out what is going on.

(b) Rigathi: His mission will succeed, if other Opposition leaders don't find out what is going on.

@StandardKenya

We called him Bob: Kenyans recall encounter with Pope

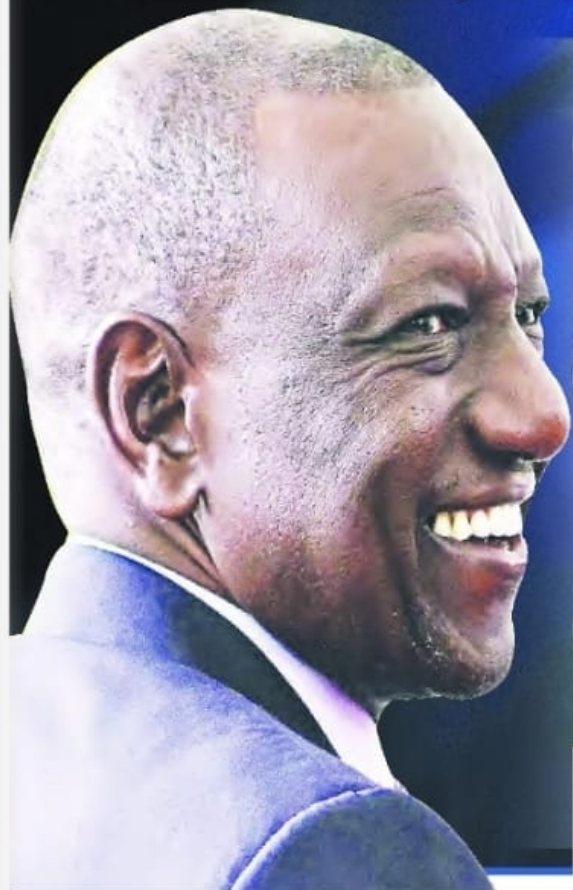

In February, Cardinal Francis Prevost, now Pope Leo XIV, spent six hours in his 24-hour visit at Sacred Heart Baba Dogo in Nairobi where he helped several projects.

NATIONAL PAGES 4 & 5

Defective nominees

QUESTIONABLE Some nominees to the electoral commission have been linked to President William Ruto and his inner circle. Others have been mentioned in multi-million-shilling scandals. As the opposition braces for a showdown with Ruto for sidestepping rules of engagement agreed at the Bomas talks, will the team prove critics wrong and deliver a clean 2027 election? **PAGES 8 & 9**

ANNE NDERITU

She has been criticised for some of her decisions as Registrar of Parties and links with the Kenya Kwanza administration. In 2023, Azimio demanded for her resignation over claims of bias.

HASSAN NOOR HASSAN

In 2019, he was among those arrested over the Sh1.6 billion NYS scandal. As the head of the Mau Forest Interim Coordination Secretariat, he was accused of trampling on the rights of indigenous communities.

FRANCIS ADUL

As TUK vice chancellor, he was alleged to have employed and promoted over 400 staff without advertising the vacancies. He was also on the spot for unpaid staff arrears, irregular expenditures and unsupported allowances.

ERASTUS EDUNG ETHEKON

He served as Attorney in Turkana County under Governor Joshat Nanok, who is now Deputy Chief of Staff in President William Ruto's administration. His nomination has been interpreted by some as a consequence of his long-standing association with the key ally of the President.

CONTEXT

Rigathi Gachagua & William Ruto believe:

1. Ruto-controlled IEBC can conduct credible elections;
2. LEADERLESS, PARTYLESS & TRIBELESS movement is a threat to their interests;
3. 'Let bygones be bygones', regarding missing & killed Kenyan youth by security agents since last year *maandamano*;
4. Kenyans should focus on '2027 Elections', rather than June 25th Anniversary, when many innocent patriots were murdered by Ruto's security agents.

Despite Rigathi Gachagua portraying himself as a fierce critic of William Ruto, they are both in agreement that, 'Kenyans should wait for 2027 elections', instead of removing Ruto's regime now.

Believe it or not, most Kenyan politicians prefer the corrupt, inefficient, poverty-creating, inept status quo; instead of a clean government system that rewards honest

labour/entrepreneurship - they only complain if they are not allowed to be at the eating table.

Unfortunately, in Mt Kenya region, the percentage of politicians opposed to change - that will usher in a rich democracy - is much more than in other regions.

That is why, soon, Mt Kenya politicians in govt - Moses Kuria, William Kabogo et al - will resign and declare 'solidarity with Rigathi (for 2027 elections)'.

Already, there are Mountain politicians - some with briefcase political parties - who have joined 'Rigathi Alliance'.

And more will join him, to 'plot for 2027 elections'.

The people need to realise that these corrupt, greedy politicians only care for their interests.

They need to be shunned.

There is no difference between them and *Kaongo*.

Mt Kenya people should join other Kenyans in saying: '**Ruto must go NOW!**'

Why Mossad is Pushing Hard for Rigathi Gachagua to become Mt Kenya Political Kingpin

The presidential ticket of William Ruto and Rigathi Gachagua was the DREAM TEAM.

Mossad's mole Farouk Kibet is chief confidant of Ruto.

Mossad's mole Pastor Dorcas is chief confidant of Gachagua.

Pastor Dorcas Rigathi - Mossad Mole

(BTW there are other Kenya-based Mossad moles who are pastors e.g. Lucy Natasha - perfect camouflage)

Back to Ruto-Rigathi 'Dream Team':

After the duo got into power, problems began.

Kenyans started complaining of increased corruption, extreme incompetence of top government officials, rising cost of living...

By 2024, citizens wanted Ruto's regime gone.

He was almost toppled by the people.

He had only 2 options: (i) Resign, or (ii) Cut a deal with the largest opposition party.

He chose the latter option - he formed a sort of coalition govt with Raila Odinga's ODM party.

This solved some problems for Ruto, but also created other problems.

Ruto got most of his votes from Central/Mt Kenya region.

Reason?

People in the region were made to believe, if they did not vote for Ruto, then 'Raila would become president'.

And Raila had been used as bogeyman, to popularise Ruto in the region.

The moles who successfully made Raila bogeyman in Mt Kenya, did not do so because they hated him.

It is because there was no other way to popularise a person like Ruto, who has no redeeming qualities, according to people who know him well.

For instance, Ruto's chief economic advisor wrote on #X: "William Ruto is a megalomaniac psychopath with no good deeds, just an endless trail of death and destruction that will not end until he is stopped." (that was before he joined Ruto's campaign, to eat)

When Ruto had 'handshake' with Raila in late 2024, Ruto's support in Mt Kenya was lost immediately (though he has retained support of most MPs from the region).

And his then deputy, Rigathi, couldn't do anything to help get that support back.

What could Rigathi tell the people?

Yet he had told them for 4 years that they needed to vote for Ruto, so Raila doesn't get power?

Rigathi was now useless politically to Ruto - that is why he engineered his impeachment.

Ruto & his advisors thought that if they replaced Rigathi with Kithure Kindiki, who had generally not used Raila's name while campaigning for Ruto, then somehow, he could convince Mt Kenya people to support the govt.

But that has proved impossible.

The bogeyman issue they used to get votes, is also the reason the ruling UDA/KK party cannot get back support from the Mountain region again (ignoring other issues like bad economy, police state etc).

The current political situation in Mt Kenya has worried Mossad deeply.

(for some reason, these tactics were only used in Central/Mt Kenya region. Why Mossad did not employ same tactics in any other region, would take a whole book to explain)

Anyway, Mossad always has Plans A, B, C...

Their plan B is for Rigathi Gachagua to take control of Mt Kenya region politically.

So he can then cut a deal later with Ruto.

That is why **Rigathi is so obsessed with '2027 elections' - to buy Ruto time.**

Rigathi Gachagua does not speak several sentences without mentioning '2027', or '2027 elections'. Despite every reasonable Kenyan knowing it is not possible to have free and fair elections while Ruto is in power, Rigathi doesn't seem to worry about that.

Rigathi's obsession with '2027 elections' is so pertinacious that, he has claimed many times - publicly - that when Gen-Z/Gen-Zote demand 'Ruto Must Go', they mean he must be defeated in '2027 elections'.

That is a lie, obviously.

Also, Rigathi has repeatedly implied that he trusts Ruto-controlled IEBC, even more than ODM politicians trust it, yet their party is part of the government.

This leaves no doubt that **Rigathi Gachagua is being propped-up as some sort of Ruto-B in Mt Kenya region.**

Mossad moles in Kenya are pushing hard for Rigathi to control Mt Kenya vote through his so-called '*Itungati Movement*'.

They are doing this both on the ground, and on social media.

They want Rigathi to control Mountain MPs in 2027.

Rigathi is the most hated politician outside Mt Kenya region.

In many places outside Mt Kenya, Rigathi is even more hated than Ruto.

When he claims he would go for presidency, it is so as to hide his true intentions - as guided by Mossad moles close to him.

What will happen if Kenyans let Ruto remain in power till 2027 'elections'

1. If Ruto somehow loses the election, then Ruto & Rigathi's MPs would impeach the new president quickly, and the 2 would get back to power, as allies.

This is despite the fact that the Mt Kenya MPs would have been voted in by people who did NOT vote for Ruto.

2. If Ruto steals the vote and is declared the 'winner', there will definitely be serious protests countrywide - he cuts a deal with Rigathi, so he will have support of parliament and security services, even though he won't have support of the people.

Just like the case currently.

Therefore, Mossad is promoting Rigathi today; then later manipulate Mt Kenya people to vote in pro-Rigathi MPs, who would then betray voters - just like most Mountain MPs are betraying voters today, because their loyalty is to Ruto, not their people.

Mossad is determined that, at a minimum, Kenya must be ruled by a person who has their mole attached extremely close to him.

Obviously, while that is in Israeli interest, it is against Kenya interests.

That is why Ruto, Rigathi & any Mossad mole, or person with Mossad impostor embedded into them, cannot be part of any future Kenya government, if the country's problems are to be solved.

The Standard

Name the abductors!

ACCOUNTABILITY President William Ruto's response to a journalist's question on Monday turned out to be self-incriminating, opening the door for renewed calls for him to acknowledge State-sponsored killings and abductions related to the Gen Z uprising. Pressure is mounting on the President to follow his admission with concrete action by naming the perpetrators and bringing them to justice. **PAGE 4**

David Maraga,
Retired Chief Justice

"... Such utterances are deeply hurtful especially to parents still mourning the loss of their children. How long shall the lives of innocent Kenyans be so devalued and dismissed?"

Martha Karua,
Leader-People's Liberation Party

"Now that Ruto has acknowledged abductions, he needs to go further and acknowledge extra-judicial killings and disappearances ... and take steps to have the culprits, including those captured in the BBC documentary, held accountable."

Hussein Khalid,
CEO Vocal Africa

"... We are ready to present these families to meet with President Ruto, at a place and time of his choosing, so that he may hear first-hand from those whose loved ones are still missing... Healing and justice begins with acknowledgment, not denial."
